

兔抗 AKAP3 多克隆抗体

- 中文名称：兔抗 AKAP3 多克隆抗体
- 英文名称：Anti-AKAP3 rabbit polyclonal antibody
- 别名：A-kinase anchoring protein 3; CT82; SOB1; FSP95; PRKA3; HEL159; AKAP110; AKAP110
- 相关类别：一抗
- 储存：冷冻 (-20℃)
- 抗原：AKAP3
- 宿主：Rabbit
- 反应种属：Human
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a member of A-kinase anchoring proteins (AKAPs), a family of functionally related proteins that target protein kinase A to discrete locations within the cell. The encoded protein is reported to participate in protein-protein interactions with the R-subunit of the protein kinase A as well as sperm-associated proteins. This protein is expressed in spermatozoa and localized to the acrosomal region of the sperm head as well as the length of the principal piece. It may function as a regulator of motility, capacitation, and the acrosome reaction.
Applications:	ELISA, IHC

Name of antibody:	AKAP3
Immunogen:	Synthetic peptide of human AKAP3
Full name:	A-kinase anchoring protein 3
Synonyms:	CT82; SOB1; FSP95; PRKA3; HEL159; AKAP110; AKAP 110
SwissProt:	O75969
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human brain
IHC Recommend dilution:	20-100
