

兔抗 BSN 多克隆抗体

中文名称: 兔抗 BSN 多克隆抗体

英文名称: Anti-BSN rabbit polyclonal antibody

别 名: ZNF231

抗 原: BSN

储 存: 冷冻 (-20℃)

宿 主: Rabbit

反应种属: Human, Mouse, Rat

相关类别: 一抗

标 记 物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	Neurotransmitters are released from a specific site in the axon terminal called the active zone, which is composed of synaptic vesicles and a meshwork of cytoskeleton underlying the plasma membrane. The protein encoded by this gene is thought to be a scaffolding protein involved in organizing the presynaptic cytoskeleton. The gene is expressed primarily in neurons in the brain. A similar gene product in rodents is concentrated in the active zone of axon terminals and tightly associated with cytoskeletal structures, and is essential for regulating neurotransmitter release from a subset of synapses.
Applications:	ELISA, IHC

Name of antibody:	BSN
Immunogen:	Synthetic peptide of human BSN
Full name:	bassoon presynaptic cytomatrix protein
Synonyms :	ZNF231
SwissProt:	Q9UPA5
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human gastric cancer and Human liver cancer
IHC Recommend dilution:	10-50
