

兔抗 CANX 多克隆抗体

中文名称：兔抗 CANX 多克隆抗体

英文名称：Anti-CANX rabbit polyclonal antibody

别名：CNX; P90; IP90

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：CANX

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

WB Recommended dilution:	1000-5000
WB Positive control:	LNCAP cell, Mouse heart tissue, HUVEC cell lysates
WB Predicted band size:	67 kDa
IHC Recommend dilution:	50-200
IHC positive control:	Human cervical cancer
ELISA Recommended dilution:	5000-10000
SwissProt:	P27824
Synonyms:	CNX; P90; IP90
Full name:	calnexin
Immunogen:	Synthetic peptide of human CANX
Name of antibody:	CANX
Applications:	ELISA, WB, IHC

Background:

This gene encodes a member of the calnexin family of molecular chaperones. The encoded protein is a calcium-binding, endoplasmic reticulum (ER)-associated protein that interacts transiently with newly synthesized N-linked glycoproteins, facilitating protein folding and assembly. It may also play a central role in the quality control of protein folding by retaining incorrectly folded protein subunits within the ER for degradation. Alternatively spliced transcript variants encoding different isoforms have been described.
