

兔抗 CD3EAP 多克隆抗体

中文名称: 兔抗 CD3EAP 多克隆抗体

英文名称: Anti-CD3EAP rabbit polyclonal antibody

别名: ASE1; CAST; ASE-1; PAF49

抗原: CD3EAP

储存: 冷冻 (-20℃) 避光

宿主: Rabbit

反应种属: Human

相关类别: 一抗

标记物: Unconjugate

克隆类型: Unconjugate

技术规格

| | |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | DNA-dependent RNA polymerase catalyzes the transcription of DNA into RNA using the four ribonucleoside triphosphates as substrates. Component of RNA polymerase I which synthesizes ribosomal RNA precursors. Isoform 1 is involved in UBTF-activated transcription, presumably at a step following PIC formation. Isoform 2 has been described as a component of preformed T-cell receptor (TCR) complex. |
| Applications: | WB |
| Name of antibody: | CD3EAP |
| Immunogen: | Synthesized peptide derived from internal of human CD3EAP. |
| Full name: | CD3e molecule, epsilon associated protein |

| | |
|---------------------------------|--------------------------|
| Synonyms : | ASE1; CAST; ASE-1; PAF49 |
| SwissProt: | O15446 |
| WB Predicted band size: | 55 kDa |
| WB Positive control: | A549 cells lysate |
| WB Recommended dilution: | 500-3000 |
