兔抗 ZNF496 多克隆抗体

中文名称： 兔抗 ZNF496 多克隆抗体

英文名称： Anti-ZNF496 rabbit polyclonal antibody

抗　　原： ZNF496

别　　名： NIZP1; ZFP496; ZSCAN49; ZKSCAN17

相关类别： 一抗

储　　存： 冷冻（-20℃）

宿　　主： Rabbit

反应种属： Human

标 记 物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	Zinc-finger proteins contain DNA-binding domains and have a wide variety of functions, most of which enco mpass some form of transcriptional activation or repre ssion. The majority of zinc-finger proteins contain a Kr üppel-type DNA binding domain and a KRAB domain, which is thought to interact with KAP1, thereby recruit ing histone modifying proteins. ZNF496 (Zinc finger pr otein 496), also known as ZKSCAN17 or NIZP1, is a 58 7 amino acid member of the Krüppel C2H2-type zinc-f inger protein family and is thought to act as a transcri ptional repressor. Localized to the nucleus, ZNF496 co ntains one SCAN box domain, one KRAB domain and five C2H2-type zinc fingers through which it may conv ey DNA, RNA and protein binding capabilities.

Applications:	ELISA, IHC
Name of antibody:	ZNF496
Immunogen:	Fusion protein of human ZNF496
Full name:	zinc finger protein 496
Synonyms:	NIZP1; ZFP496; ZSCAN49; ZKSCAN17
SwissProt:	Q96IT1
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human lung cancer and human liver cancer
IHC Recommend dilution:	25-100
