

## 兔抗 HFE 多克隆抗体

中文名称: 兔抗 HFE 多克隆抗体

英文名称: Anti-HFE rabbit polyclonal antibody

别名: HH; HFE1; HLA-H; MVCD7; TFQTL2

相关类别: 一抗

储存: 冷冻 (-20℃) 避光

宿主: Rabbit

抗原: HFE

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

### 技术规格

<b>Background:</b>	The protein encoded by this gene is a membrane protein that is similar to MHC class I-type proteins and associates with beta2-microglobulin (beta2M). It is thought that this protein functions to regulate iron absorption by regulating the interaction of the transferrin receptor with transferrin. The iron storage disorder, hereditary hemochromatosis, is a recessive genetic disorder that results from defects in this gene. At least nine alternatively spliced variants have been described for this gene. Additional variants have been found but their full-length nature has not been determined.
<b>Applications:</b>	WB
<b>Name of antibody:</b>	HFE
<b>Immunogen:</b>	Fusion protein of human HFE
<b>Full name:</b>	hemochromatosis

<b>Synonyms :</b>	HH; HFE1; HLA-H; MVCD7; TFQTL2
<b>SwissProt:</b>	Q30201
<b>WB Predicted band size:</b>	40 kDa
<b>WB Positive control:</b>	Hela, A375 and Caco-2 cells
<b>WB Recommended dilution:</b>	500-2000
