

兔抗 HIRIP3 多克隆抗体

中文名称: 兔抗 HIRIP3 多克隆抗体

英文名称: Anti-HIRIP3 rabbit polyclonal antibody

别名: HIRA interacting protein 3

相关类别: 一抗

储存: 冷冻 (-20℃)

宿主: Rabbit

抗原: HIRIP3

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	The HIRA protein shares sequence similarity with Hir1p and Hir2p, the two corepressors of histone gene transcription characterized in the yeast, <i>Saccharomyces cerevisiae</i> . The structural features of the HIRA protein suggest that it may function as part of a multiprotein complex. Several cDNAs encoding HIRA-interacting proteins, or HIRIPs, have been identified. In vitro, the protein encoded by this gene binds HIRA, as well as H2B and H3 core histones, indicating that a complex containing HIRA-HIRIP3 could function in some aspects of chromatin and histone metabolism. Alternatively spliced transcript variants encoding distinct isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	HIRIP3

Immunogen:	Fusion protein of human HIRIP3
Full name:	HIRA interacting protein 3
SwissProt:	Q9BW71
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer and Human tonsil
IHC Recommend dilution:	50-300
