

兔抗 ITGAL 多克隆抗体

中文名称: 兔抗 ITGAL 多克隆抗体

英文名称: Anti-ITGAL rabbit polyclonal antibody

别名: CD11A, LFA-1, LFA1A

相关类别: 一抗

储存: 冷冻 (-20℃)

宿主: Rabbit

抗原: ITGAL

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	ITGAL encodes the integrin alpha L chain. Integrins are hetero dimeric integral membrane proteins composed of an alpha chain and a beta chain. This I-domain containing alpha integrin combines with the beta 2 chain (ITGB2) to form the integrin lymphocyte function-associated antigen-1 (LFA-1), which is expressed on all leukocytes. LFA-1 plays a central role in leukocyte intercellular adhesion through interactions with its ligands, ICAMs 1-3 (intercellular adhesion molecules 1 through 3), and also functions in lymphocyte costimulatory signaling. Two transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	ITGAL

Immunogen:	Synthetic peptide of human ITGAL
Full name:	integrin, alpha L (antigen CD11A (p180), lymphocyte function-associated antigen 1; alpha polypeptide)
Synonyms :	CD11A, LFA-1, LFA1A
SwissProt:	P20701
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human esophagus cancer and Human liver cancer
IHC Recommend dilution:	15-50
