

兔抗 KLRC1 多克隆抗体

- 中文名称：兔抗 KLRC1 多克隆抗体
- 英文名称：Anti-KLRC1 rabbit polyclonal antibody
- 别名：NKG2; NKG2A; CD159A
- 抗原：KLRC1
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 相关类别：一抗
- 反应种属：Human
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:	Natural killer (NK) cells are lymphocytes that can mediate lysis of certain tumor cells and virus-infected cells without previous activation. They can also regulate specific humoral and cell-mediated immunity. The protein encoded by this gene belongs to the killer cell lectin-like receptor family, also called NKG2 family, which is a group of transmembrane proteins preferentially expressed in NK cells. This family of proteins is characterized by the type II membrane orientation and the presence of a C-type lectin domain. This protein forms a complex with another family member, KLRD1/CD94, and has been implicated in the recognition of the MHC class I HLA-E molecules in NK cells.
--------------------	---

Applications:	ELISA, IHC
Name of antibody:	KLRC1
Immunogen:	Fusion protein of human KLRC1
Full name:	killer cell lectin-like receptor subfamily C, member 1
Synonyms:	NKG2; NKG2A; CD159A
SwissProt:	P26715
IHC positive control:	Human gastric cancer and human thyroid cancer
IHC Recommend dilution:	50-200
