

兔抗 LYPLA1 多克隆抗体

中文名称:	兔抗 LYPLA1 多克隆抗体
英文名称:	Anti-LYPLA1 rabbit polyclonal antibody
别名:	lysophospholipase 1; APT1; LPL1; APT-1; LPL-I; hAPT1
相关类别:	一抗
储存:	冷冻 (-20℃)
宿主:	Rabbit
抗原:	LYPLA1
反应种属:	Human, Mouse, Rat
标记物:	Unconjugate
克隆类型:	rabbit polyclonal

技术规格

Background:	This gene encodes a member of the alpha/beta hydrolase superfamily. The encoded protein functions as a homodimer, exhibiting both depalmitoylating as well as lysophospholipase activity, and may be involved in Ras localization and signaling. Alternate splicing results in multiple transcript variants. Pseudogenes of this gene have been defined on chromosomes 4, 6, and 7.
Applications:	ELISA, WB, IHC
Name of antibody:	LYPLA1
Immunogen:	Fusion protein of human LYPLA1
Full name:	lysophospholipase 1
Synonyms:	APT1; LPL1; APT-1; LPL-I; hAPT1

SwissProt:	O75608
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	50-200
WB Predicted band size:	25 kDa
WB Positive control:	Mouse small intestines tissue lysate
WB Recommended dilution:	500-2000
