FHL2 抗原(重组蛋白)

- 中文名称: FHL2 抗原(重组蛋白)
- 英文名称: FHL2 Antigen (Recombinant Protein)
- 别名: DRAL; AAG11; FHL-2; SLIM3; SLIM-3
- 储存: 冷冻 (-20℃)
- 相关类别: 抗原

概述

Full length fusion protein

技术规格

Full name:	four and a half LIM domains 2
Synonyms:	DRAL; AAG11; FHL-2; SLIM3; SLIM-3
Swissprot:	Q14192
Gene Accession:	NP_963849
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	This gene encodes a member of the four-and-a-half-LIM-only protei n family. Family members contain two highly conserved, tandemly a rranged, zinc finger domains with four highly conserved cysteines bi nding a zinc atom in each zinc finger. This protein is thought to ha ve a role in the assembly of extracellular membranes. Also, this gen e is down-regulated during transformation of normal myoblasts to r habdomyosarcoma cells and the encoded protein may function as a link between presenilin-2 and an intracellular signaling pathway. Mu Itiple alternatively spliced variants, encoding the same protein, have been identified.
