

## SPATA6 抗原（重组蛋白）

中文名称：SPATA6 抗原（重组蛋白）

英文名称： SPATA6 Antigen (Recombinant Protein)

别名： spermatogenesis associated 6; HASH; SRF1; SRF-1

储存： 冷冻（-20℃）

相关类别： 抗原

概述：

Fusion protein corresponding to a region derived from 21-321 amino acids of human SPATA6

技术规格：

<b>Full name:</b>	spermatogenesis associated 6
<b>Synonyms:</b>	HASH; SRF1; SRF-1
<b>Swissprot:</b>	Q9NWH7
<b>Gene Accession:</b>	BC020660
<b>Purity:</b>	>85%, as determined by Coomassie blue stained SDS-PAGE
<b>Expression system:</b>	Escherichia coli
<b>Tags:</b>	His tag C-Terminus, GST tag N-Terminus
<b>Background:</b>	SPATA6 (spermatogenesis associated 6), also known as SRF1, is a 488 amino acid secreted protein that may be involved in spermatid maturation or sperm function. SPATA6 is expressed during embryonic development and is localized in neural tube, somites and limb buds of mouse embryo. Existing as two isoforms produced by alternative splicing events, the gene encoding SPATA6 maps to mouse chromosome 4 and human chromosome 1.
