

兔抗 DHFR 多克隆抗体

中文名称：兔抗 DHFR 多克隆抗体

英文名称：Anti-DHFR rabbit polyclonal antibody

别名：dihydrofolate reductase; DYR; DHFRP1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：DHFR

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Dihydrofolate reductase converts dihydrofolate into tetrahydrofolate, a methyl group shuttle required for the de novo synthesis of purines, thymidylic acid, and certain amino acids. While the functional dihydrofolate reductase gene has been mapped to chromosome 5, multiple introgressed pseudogenes or dihydrofolate reductase-like genes have been identified on separate chromosomes. Dihydrofolate reductase deficiency has been linked to megaloblastic anemia. Several transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	DHFR
Immunogen:	Fusion protein of human DHFR

Full name:	dihydrofolate reductase
Synonyms:	DYR; DHFRP1
SwissProt:	P00374
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human tonsil
IHC Recommend dilution:	50-300
