

兔抗 MIA 多克隆抗体

中文名称：兔抗 MIA 多克隆抗体

英文名称：Anti-MIA rabbit polyclonal antibody

别名：melanoma inhibitory activity; CD-RAP

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：MIA

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

| | |
|------------------------------------|---|
| Background: | Elicits growth inhibition on melanoma cells in vitro as well as some other neuroectodermal tumors, including gliomas. |
| Applications: | ELISA, IHC |
| Name of antibody: | MIA |
| Immunogen: | Fusion protein of human MIA |
| Full name: | melanoma inhibitory activity |
| Synonyms: | CD-RAP |
| SwissProt: | Q16674 |
| ELISA Recommended dilution: | 5000-10000 |
| IHC positive control: | Human cervical cancer and Human colorectal cancer |
| IHC Recommend dilution: | 100-300 |
