

兔抗 DUSP2 多克隆抗体

中文名称：兔抗 DUSP2 多克隆抗体

英文名称：Anti-DUSP2 rabbit polyclonal antibody

别名：PAC1; PAC-1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：DUSP2

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a member of the dual specificity protein phosphatase subfamily. These phosphatases inactivate their target kinases by dephosphorylating both the phosphoserine/threonine and phosphotyrosine residues. They negatively regulate members of the mitogen-activated protein (MAP) kinase superfamily (MAPK/ERK, SAPK/JNK, p38), which are associated with cellular proliferation and differentiation. Different members of the family of dual specificity phosphatases show distinct substrate specificities for various MAP kinases, different tissue distribution and subcellular localization, and different modes of inducibility of their expression by extracellular stimuli.

Applications:	ELISA, WB, IHC
Name of antibody:	DUSP2
Immunogen:	Synthetic peptide of human DUSP2
Full name:	dual specificity phosphatase 2
Synonyms :	PAC1; PAC-1
SwissProt:	Q05923
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human thyroid cancer and Human liver cancer
IHC Recommend dilution:	25-100
WB Predicted band size:	34 kDa
WB Positive control:	Hela cells
WB Recommended dilution:	200-1000
