

兔抗 EMC1 多克隆抗体

中文名称：兔抗 EMC1 多克隆抗体

英文名称：Anti-EMC1 rabbit polyclonal antibody

别名：ER membrane protein complex subunit 1; CAVIPMR; KIAA0090

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：EMC1

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a single-pass type I transmembrane protein, which is a subunit of the endoplasmic reticulum membrane protein complex (EMC). Multiple alternatively spliced transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	EMC1
Immunogen:	Fusion protein of human EMC1
Full name:	ER membrane protein complex subunit 1
Synonyms:	CAVIPMR; KIAA0090
SwissProt:	Q8N766

ELISA Recommended dilution:	5000-10000
IHC positive control:	Human brain and Human tonsil
IHC Recommend dilution:	40-200
