

兔抗 NCR1 多克隆抗体

中文名称：兔抗 NCR1 多克隆抗体

英文名称：Anti-NCR1 rabbit polyclonal antibody

别名：natural cytotoxicity triggering receptor 1; LY94; CD335; NKP46; NK-p46

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Cytotoxicity-activating receptor that may contribute to the increased efficiency of activated natural killer (NK) cells to mediate tumor cell lysis. When LY94 is expressed in COS-7 cells, anti-NKp46 immunoprecipitates a 46-kD surface molecule. Northern blot analysis revealed weak expression of a major transcript of 3.4 kb in spleen but in no other human tissue. Further analysis, with RT-PCR confirmation, in various lymphoid and myelomonocytic cells revealed that LY94 expression is confined to NK cells.
Applications:	ELISA, WB
Name of antibody:	NCR1
Immunogen:	Synthetic peptide of human NCR1
Full name:	natural cytotoxicity triggering receptor 1
Synonyms:	LY94; CD335; NKP46; NK-p46
SwissProt:	O76036
ELISA Recommended dilution:	5000-10000

WB Predicted band size:	34 kDa
WB Positive control:	SKOV3 cell lysate
WB Recommended dilution:	500-2000
