

兔抗 PKIA 多克隆抗体

中文名称: 兔抗 PKIA 多克隆抗体

英文名称: Anti-PKIA rabbit polyclonal antibody

别名: PRKACN1

相关类别: 一抗

抗原: PKIA

储存: 冷冻 (-20℃) 避光

宿主: Rabbit

反应种属: Human Mouse

标记物: Unconjugate

克隆类型: Unconjugate

技术规格

| | |
|--------------------------------|---|
| Background: | The protein encoded by this gene is a member of the cAMP-dependent protein kinase (PKA) inhibitor family. This protein was demonstrated to interact with and inhibit the activities of both C alpha and C beta catalytic subunits of the PKA. Alternatively spliced transcript variants encoding the same protein have been reported. |
| Applications: | IHC, IF |
| Name of antibody: | PKIA |
| Immunogen: | Synthesized peptide derived from internal of human IPKA. |
| Full name: | protein kinase (cAMP-dependent, catalytic) inhibitor alpha |
| Synonyms : | PRKACN1 |
| SwissProt: | P61925 |
| IHC positive control: | Human brain tissue |
| IHC Recommend dilution: | 50-100 |
| IF positive control: | Hela cells |

IF Recommend dilution: 100-500
