

兔抗 COL11A1 多克隆抗体

中文名称：兔抗 COL11A1 多克隆抗体

英文名称：Anti-COL11A1 rabbit polyclonal antibody

别名：collagen type XI alpha 1 chain; STL2; COLL6; CO11A1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：COL11A1

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes one of the two alpha chains of type X I collagen, a minor fibrillar collagen. Type XI collagen is a heterotrimer but the third alpha chain is a post-translationally modified alpha 1 type II chain. Mutations in this gene are associated with type II Stickler syndrome and with Marshall syndrome. A single-nucleotide polymorphism in this gene is also associated with susceptibility to lumbar disc herniation. Multiple transcript variants have been identified for this gene.
Applications:	ELISA, IHC
Name of antibody:	COL11A1
Immunogen:	Fusion protein of human COL11A1
Full name:	collagen type XI alpha 1 chain
Synonyms:	STL2; COLL6; CO11A1

SwissProt:	P12107
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human thyroid cancer and Human liver cancer
IHC Recommend dilution:	25-100
