

兔抗 TBCC 多克隆抗体

中文名称：兔抗 TBCC 多克隆抗体

英文名称： Anti-TBCC rabbit polyclonal antibody

别名： tubulin folding cofactor C; CFC

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： TBCC

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	Cofactor C is one of four proteins (cofactors A, D, E, and C) involved in the pathway leading to correctly folded beta-tubulin from folding intermediates. Cofactors A and D are believed to play a role in capturing and stabilizing beta-tubulin intermediates in a quasi-native confirmation. Cofactor E binds to the cofactor D/beta-tubulin complex; interaction with cofactor C then causes the release of beta-tubulin polypeptides that are committed to the native state.
Applications:	ELISA, IHC
Name of antibody:	TBCC

Immunogen:	Fusion protein of human TBCC
Full name:	tubulin folding cofactor C
Synonyms:	CFC
SwissProt:	Q15814
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human prostate cancer
IHC Recommend dilution:	100-200
