

兔抗 CEBPA 多克隆抗体

中文名称:	兔抗 CEBPA 多克隆抗体
英文名称:	Anti-CEBPA rabbit polyclonal antibody
别名:	CEBP, C/EBP-alpha
相关类别:	一抗
储存:	冷冻 (-20℃)
宿主:	Rabbit
抗原:	CEBPA
反应种属:	Human, Mouse, Rat
标记物:	Unconjugate
克隆类型:	rabbit polyclonal

技术规格

Background:	The protein encoded by this intronless gene is a bZIP transcription factor which can bind as a homodimer to certain promoters and enhancers. It can also form heterodimers with the related proteins CEBP-beta and CEBP-gamma. The encoded protein has been shown to bind to the promoter and modulate the expression of the gene encoding leptin, a protein that plays an important role in body weight homeostasis. Also, the encoded protein can interact with CDK2 and CDK4, thereby inhibiting these kinases and causing growth arrest in cultured cells.
Applications:	ELISA, IHC
Name of antibody:	CEBPA
Immunogen:	Synthetic peptide of human CEBPA
Full name:	CCAAT/enhancer binding protein (C/EBP), alpha

Synonyms :	CEBP, C/EBP-alpha
SwissProt:	P49715
ELISA Recommended dilution:	2000-10000
IHC positive control:	Human tonsil and Human ovarian cancer
IHC Recommend dilution:	50-200
